The Jews in Palestine.

Recent accounts from the Holy Land represent the condition of the Jews in that country as most lamentable; and there is abundant evidence that these people are suffering great distress from destitution. Their misfortunes have been occasioned partly by the failure of the last harvest, which has raised the price of food to an enormous height, and partly by the present war and political disturbances, and the diminution of the resources for the support of the poor, derived from other countries. Their contributions—the greater part of which are furnished by Russia—are now almost cut off, and these causes, if not totally remedied by a famine, are devoted to a further increase of suffering.

of the Free Soil and Abolition school. As long as we thought them sincere and honest professions which they made—as long as we believed them disposed to uphold the Constitution and the law of the land—we stood side with them in the struggles which we had with Democracy, not doubting in their simplicity and earnestness of our faith that a spirit of patriotism—a wide and vigorous servanism—a genuine and a lofty regard for country animated their counsels and influenced their conduct. We thought, too, that in respect the claims of the Northern Democracy to Southern favor were far inferior to those of the Whigs. But the Nebraska tonel-tonel-

"Poverty in the East differs vastly from that calamity experienced in western Europe inasmuch as the capability to relieve it, in the East, confined within the narrowest bounds and restricted to a very limited number. In giving the general outline of the condition of my brethren in Judea, my feelings were naturally aroused in their behalf.

"Assemble, ye scitless, and publish the story of famine and pestilence, that it be borne to the remotest communities of the earth, and become the written messenger of the distress of the inhabitants of Zion, that it thereby awaken a nation's sympathies; misery has dried up the sources of eloquence wherewith to sustain your appeal, supplies are exhausted; He, in His mercy, may open the hearts of your brethren on the house-top to hasten to relieve the anguish of the drooping spirit."

We have arrayed two paragraphs from Gen. D. B. Bragg, simply to show the difference of opinion, as well as all honest men, and the wing prints *dent* in this campaign.

The Patriot says: "He (Gen. Dockery) claimed that he could not get Mr. Bragg to take definite positions in this regard, (the senior of the Central R. Road) a complaint was not satisfactorily answered by Mr. Dockery in reply."

Well, what is the fact of the case? What does the Patriot say in the same article that Mr. Dockery said in his reply?

"Starvation and pestilence walk hand in hand, and the wail of the poor, the widow, the orphan, is borne on the air. It is as if to us, to any whose sufferings are the greater than those of the millions of the poor, the wretched, the miserably oppressed of this world."

Why, so far from such ambiguity as to charge him with, according to the present sheet, Mr. Bragg gave his answer to the question, "become a State would be extensive?" because he was a capitalist, and not a socialist; and individual capitalists rise up, and yet the Patriot says he cannot understand him and that he left the subject alone. We should not be at all surprised that the *editor* was in a fog after Mr. Dockery. He left his friends in a fever, and mad besides; every whig we see after the debate, was particularly so, and wanted to discuss the political

They finally retired, but in the morning held a meeting, and resolved to put to the liquor traffic in that village.

GRAY SALE.—We attended the sale of the late Charles McDonald's property on the 10th inst. There was quite a large assemblage of people, and property generally brought high prices. Judge Ellis bought the "home place" for \$10,000. Ex-Governor McCall bought another tract, including a valuable place in the Yackin river, at \$2,000. The amount of the land sale was \$21,200. The negroes were sold, bringing a gross of \$18,000. Negro fellows were sold from \$200 to \$1,050, and one ex-

but with a bear on Monday last. It was about half past twelve that at noon on that day a bear, which had already been seen in that neighborhood, tracked one of Cantin's cows, and he determined to follow the animal armed with a gun. In the evening a discharge of a gun was heard at a great distance. His presence having excited fears for his safety, a party of neighbors set out to seek for him. The following day found his corpse in the forest, and the struggle between the man and the ferocious animal. He was completely disabled, and had his gun broken into many pieces lying around about him.
